ECON 202.12: Intermediate Macroeconomics I

Instructor: Zeynep Ozkok

Fall 2017

Office: Nicholson Tower 509

Telephone: 867-5855

E-mail: zozkok@stfx.ca

Web Page: <https://sites.google.com/site/zeynepozkok/>

Classes: Monday 2:15 – 3:30 pm and Wednesday 2:15 – 3:30 pm

Office Hours: Monday 12:30 pm – 1:30 pm, Wednesday 11:00 am – 1:30 pm,
Thursday 11 am – 12:30 pm & 2:30 pm – 3:30 pm

Description

This is the first of two half-courses on intermediate macroeconomics. Students will learn the structure and behavior of contemporary national economies with an emphasis on the policies developed to gear them towards the public interest. This course focuses on the Keynesian and classical models of the closed economy for explaining what determines national income, employment, unemployment, prices, inflation, and the interest rate.

Objectives and Learning Outcomes

The course has three main objectives:

- (1) To introduce students to basic macroeconomic models that can help them understand current macroeconomic issues.
- (2) To understand how time horizons can affect macroeconomic outcomes and policy decisions.
- (3) To prepare students for further study of macroeconomics at an advanced level.

Prerequisites

ECON 101 and 102.

Textbook

Mankiw, N. G. and W. Scarth (2014) *Macroeconomics*, Fifth Canadian Edition. New York: Worth. (Note: The same book will be used for ECON 302 in the Winter 2018 semester. You CAN also use the 4th Canadian Edition.)

Evaluation

The course grade is based on two mid-terms and a final exam as follows:

- First mid-term: 25%
- Second mid-term: 25%
- Final exam: 50%

The mid-term exams are scheduled for **October 16** and **November 15**. These exams will not be cumulative. The final exam, to be scheduled by the examinations office in December, will be cumulative.

No make-up mid-term exams will be offered. Should a student miss a mid-term for whatever reason, the weight of the mid-term will be added to the final exam. No adjustments regarding the weight of the final exam will be made.

To prepare for the exams, problems will be assigned during the semester. These will not be graded, although solutions will be discussed in class, or posted online after a suitable delay.
